

## 13.05 Assignment Instructions

---

**Instructions:** Work through Activity 4 and 5 of the Magpie Chatbot Lab found in this lesson. The files needed and details for completing each item below can be found in the lesson.

After all activities are completed, the following will be completed:

1. Complete Activity 4 and the related questions in the worksheet.
  2. Modify the `getResponse` method of the Magpie class code to do the following:
    - Respond to "I want *something*" statements.
    - Respond to "I *something* you" statements.
  3. Complete Activity 5 and the related questions in the worksheet.
  4. Modify the `getRandomResponse` method to use an array to store the possible random responses.
  5. Include two additional noncommittal random responses to the `getRandomResponse` method.
